Email: [info@kelfar.net](mailto:info@kelfar.net)

Before using the EXs-171 Sha'bi, you have to make sure that Korg Kronos has the following suggested default **Global** setup:

1. Press the button **Global**
2. Press the tab **Basic** on the touch-screen to access the **Global P0: Basic Setup**

By default the **Osc/Timbre/Track Transpose** is set to "**Works Within Scale**". In order for the EXs-171 Sha'bi sound library to work properly, it is necessary to set the **Osc/Timbre/Track** to "**Transposes Scale**".

Be sure to **Write Global Setting** when modifying the data as follows:

1. Select **Write Global Setting** from the drop-menu, a dialog box will appear.
2. Press **OK** to write the data, or press cancel without writing the data.

You can also use the **SEQUENCER REC/WRITE** switch to write data in the same way as the **Write Global Setting** command.

1. Press the button **Global**
2. Press the tab **Midi** on the touch-screen to access the **GLOBAL P1:MIDI**

By default the **Convert Position** is set to "**Pre Midi**". In order for the EXs-171 Sha'bi sound library to work properly, it is necessary to set the **Convert Position** to "**Post Midi**".

Be sure to **Write Global Setting** when modifying the data as follows:

1. Select **Write Global Setting** from the drop-menu, a dialog box will appear.
2. Press **OK** to write the data, or press cancel without writing the data.

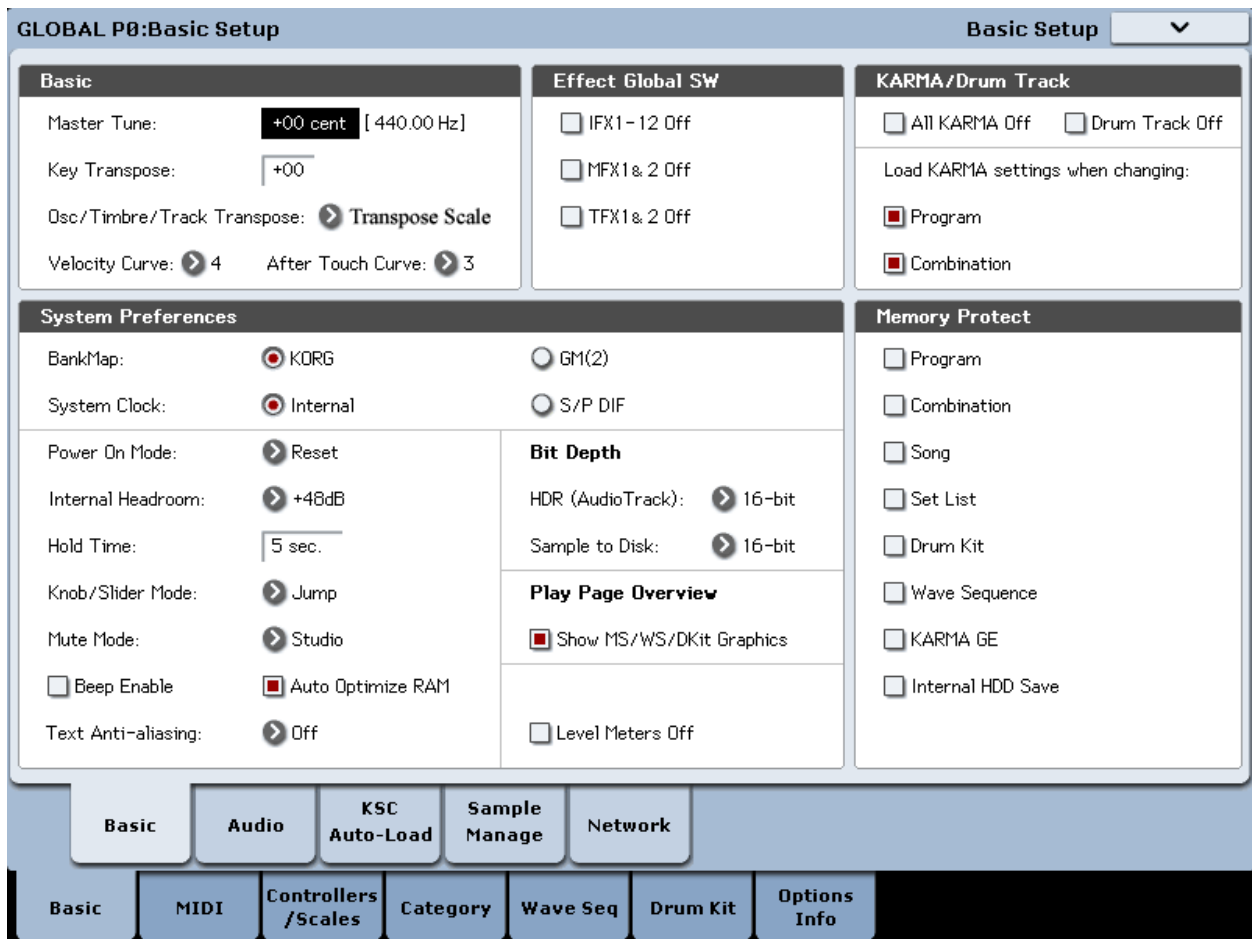

You can also use the **SEQUENCER REC/WRITE** switch to write data in the same way as the **Write Global Setting** command.

We have programmed the EXs 171 Sha'bi to respond to either Velocity or Expression Pedal (CC#11). You may setup the Korg Kronos by using one of the two options:

**Option 1: Velocity (Velocity Control)**

Before using the EXs 171 Sha'bi, you have to make sure that Korg Kronos has the following suggested default **Global** setup:

1. Press the button **Global**
2. Press the tab **Basic** on the touch-screen to access the **Global P0: Basic Setup**

By default the **Velocity Curve** is adjusted to a standard value of 4 and the **After Touch Curve** is adjusted to a standard value of 3. If not, please adjust them to the recommended values. Be sure to **Write Global Setting** when modifying the data as follows:

1. Select **Write Global Setting** from the drop-menu, a dialog box will appear.
2. Press **OK** to write the data, or press cancel without writing the data.

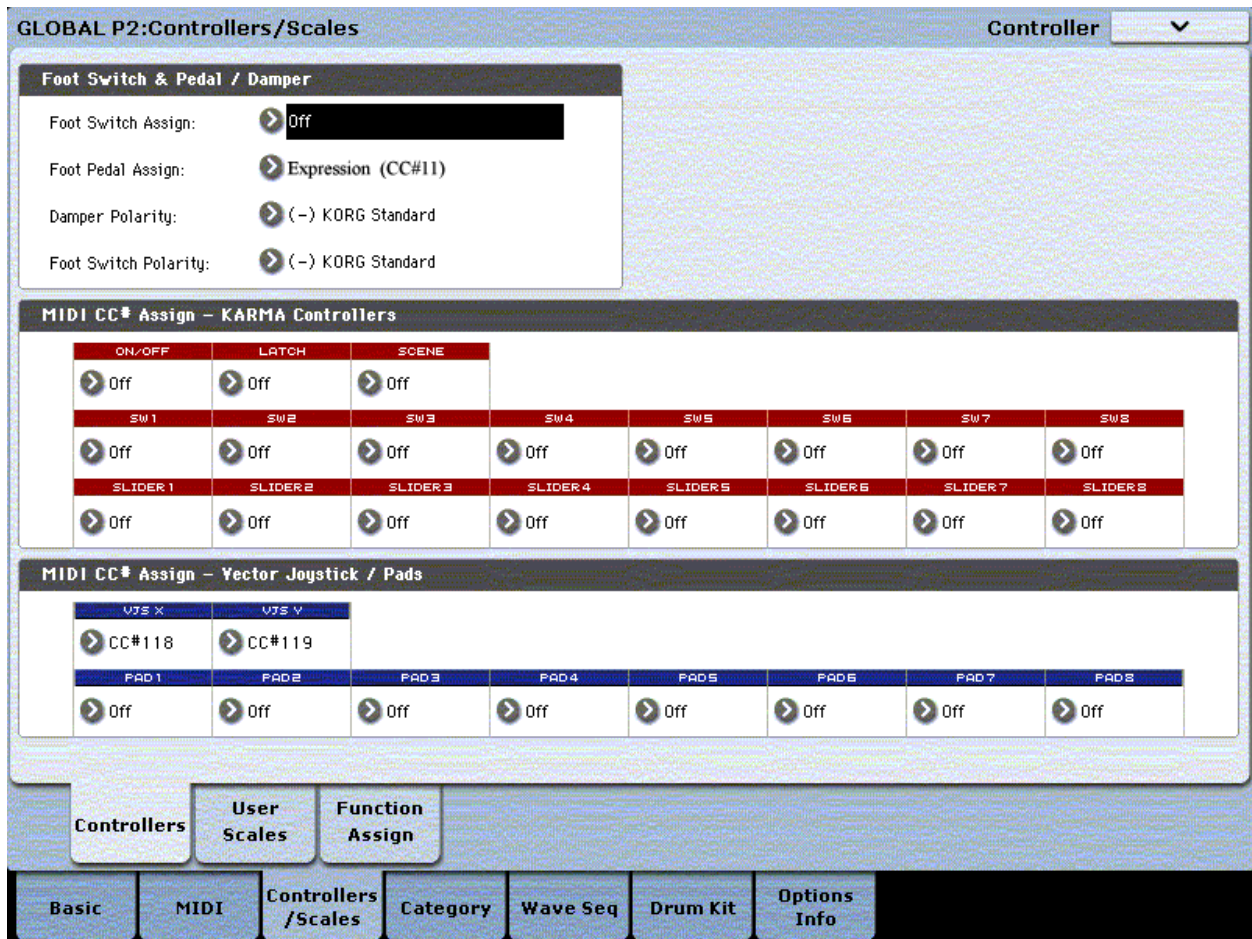

You can also use the **SEQUENCER REC/WRITE** switch to write data in the same way as the **Write Global Setting** command.

## Option 2: Expression Pedal (Expression CC#11)

If you do not have a Breath Controller or Wind controller, then it is possible to use your own Expression Pedal to control the sound. By using both keyboard and foot pedal techniques, you may be able to get good results as if you are using the Breath Controller or Wind Controller.

1. Press the **Global** button
2. Press the tab **Controllers/Scales** on the touch-screen to access the **Global P2:Controllers/Scales**
3. Press the tab **Controllers**
4. Assign **Expression (CC#11)** to the **Foot Pedal Assign**

Be sure to **Write Global Setting** when modifying the data as follows:

1. Select **Write Global Setting** from the drop-menu, a dialog box will appear.
2. Press **OK** to write the data, or press cancel without writing the data.

You can also use the **SEQUENCER REC/WRITE** switch to write data in the same way as the **Write Global Setting** command.

For your convenience, we have enabled the **RT KNOBS/KARMA (LED IS ON)** to take control of the sound in realtime. However, check page #6 for more assignable knobs, switches, and programs with Karma GE control.

**From Korg Kronos Operation Guide:**  
 "The **Realtime Knobs** are a traditional feature of Korg workstations, combining modulation, quick edits, and hands-on control.  
 "In **RT KNOBS/KARMA** mode, **Knobs 1-4** have dedicated functions, as printed on the front panel: **Filter Cutoff, Filter Resonance, Filter EG Intensity, and Release Time**. All of these correspond to standard MIDI CCs."

**Common Realtime Controls: Knobs, Switches, Joystick, Vector Joystick, and Ribbon:**

- Knob 7(USER3):** MFX1
- Knob 8(USER4):** MFX2
- SW1:** (Dynamics Control, page 8)
- SW2:** (Dynamics Control, page 8)
- JS + Y:** (Dynamics Control, page 8)
- JS - Y:** (Dynamics Control, page 8)
- Ribbon:** (Dynamics Control, page 8)
- VJS +X:** (Dynamics Control, page 8)
